

LCD MIRROR

- The LCD mirror combines a normal mirror with an LCD screen generally located inside the mirror at the left bottom corner.
- The frame is made of high-quality heavy-duty aluminium, specially designed to combine shock-resistance and an elegant design.
- The screen's size is 11 inches in standard version. Other dimensions will be available upon request.
- Videos can be changed through USB device, Bluetooth or Internet.
- Low energy consumption: it saves more than 65% of traditional lightboxes consumption.
- Certification: CE & ROHS
- Main applications are malls, toilet rooms, large exhibition projects.

LCD mirror (Indoor)

Item	Size	Screen size	Frame	Thickness	Weight
